

Art at Home

Set Up a Home Studio

RAINBOW WINDOWS

Kids in the neighbourhood are going on family walks but under the current circumstances can no longer see their friends or access certain play facilities

Some of us are putting **RAINBOW** images in our windows for them to spot like a giant I SPY game

If you would like to contribute to something small to spread joy... please join us by adding a **RAINBOW** to your window

Great activity for when kids are at home too!
